COURSEWORK

Data Structures
Design and Analysis of Algorithms
Object Oriented Programming
Operating Systems
Software Engineering
Database Management System

TECHNICAL SKILLS

Programming Languages:
C++
Web Development:
HTML • CSS • Bootstrap • JavaScript
ReactJs • Node.js • Express
App Development:
React Native
Version Control:
GitHub • Firebase
Familiar:
C • Python • Java
OS Experience
Ubuntu (Personal) • Windows .

SOFT SKILLS

Possessing Leadership Qualities.
Ability to work under pressure.
Having a Creative mind.
Take initiative to solve problems.

EXPERIENCE

CAREERCARVE | Software Development Engineer - I
January 2023 – Present | Bengaluru, India
- Planned the architecture / system design and developed entire Frontend consisting of various micro-services for AI enabled resume builder tool and CareerCarve web-app, android as well as iOS using ReactJs and React Native (JavaScript).
- Used various 3rd party libraries and services such as AWS S3, Expo and EAS and engineered a robust notification service using Firebase.
- Incorporated a robust video conferencing infrastructure leveraging 100ms technology, seamlessly integrating transcription and live session recording capabilities.
- Established app-side analytics and big data infrastructure leveraging Google Analytics. This implementation enabled comprehensive data tracking and analysis, providing valuable insights into user behavior, engagement patterns, and performance metrics.
- Contributed to Backend development in Node.js, focusing on feature development, system structuring, and basic flows. Developed a traceable feedback/ticket system and implemented deep linking for Android/iOS mobile apps.

BOOKNABE | FullStack App Developer Intern
September 2021 – February 2022 | Kolkata,India

- Crafted an engaging mobile application for passionate readers, fostering book exchanges among nearby enthusiasts, leveraging Flutter, Dart, and Firebase.
- Seamlessly integrated essential features such as OAuth for secure authentication, Firebase for real-time notifications, and Sockets for efficient two-way communication, ensuring a dynamic user experience.
- Prioritized user-friendliness in the API design, empowering developers to seamlessly integrate and focus on enhancing the frontend application's core functionalities.
- With the introduction of this sophisticated API, Booknabe.com delivers an immersive and seamless user experience, establishing itself as the go-to platform for book lovers.

THE BLACK LOVER | Junior Web Developer Intern - eCommerce
July 2020 – December 2020 | Remote
- Engineered the development of an eCommerce web application. Led the design process to ensure an intuitive and visually appealing UI/UX.
- Integrated Ship Rocket for efficient delivery management and logistics operations. Utilized Ship Rocket's features for shipment tracking and inventory management.
- Integrated Ship Rocket for efficient delivery management and logistics operations. Utilized Ship Rocket's features for shipment tracking and inventory management.
- Expanded product reach by integrating with Myntra, Ajio, and Amazon. Synchronized product listings and order processing between platforms for enhanced visibility and accessibility.
